

City of Rowlett Development Information Meeting

Community Development Department
Planning and Urban Design Division
5702 Rowlett Road
Rowlett, TX 75089
(972) 463-3927

Thank you for your interest in investing in Rowlett!

We value your time and want to partner with you to make the development process a positive experience; therefore, a Development Information Meeting (DIM) is suggested with the Development Review Committee. Here, we will discuss and evaluate your ideas and provide you applicable [development codes](#) and ordinances, as well as set out a path for review.

DIMs are generally held every Wednesday afternoon, and will only be 30 minutes in duration. Requests and all required materials must be submitted to the Planning and Urban Design Division staff no later than 3:00 PM every Friday to be considered for a meeting the following Wednesday.

Materials **required** to schedule a DIM:

- 1) **Project Narrative:** Describe in as much detail as possible what you are looking to do—new construction, the business or use to be operated at a site, the type of residences that would be constructed. This will improve the quality of information you will get at the DIM, as well as narrow the scope of it so you aren't looking at the wrong part of the code or trying to understand a process that isn't necessary.
- 2) **Site Plan:** A concept site plan will allow us to evaluate required building setbacks, landscaping and buffers, and where infrastructure, like utilities, streets, and curb cuts should be placed.
- 3) **Specific Questions:** You may be an experienced developer, or this may be your first project. Please provide any questions that you have for staff, and we will work to be prepared to answer them at the time of the meeting.

The purpose of a DIM is to provide general information regarding the City's land development processes, applicable codes, and ordinances. Please note, construction/development plans or drawings will not be accepted, nor will any approvals be given during this meeting. Any applications may be submitted in full in [MyGov](#) any time after your Development Information Meeting and on the designated [submittal date](#).

If you have any questions or concerns, please contact the Planning and Urban Design Division at (972) 463-3927.

Regards,

The Planning and Urban Design Division
